SPS scientific staff

Alex Alvarado:	information theory, digital communications, fiber optics and wireless.
Jan Bergmans:	signal processing for communications.
Egor Bondarev:	video system architectures.
Pierre Cluitmans:	neuromonitoring, medical signal processing.
Gijs Dubbelman:	automotive intelligence, mobile perception systems.
Massimo Mischi:	medical signal and image processing.
Chiara Rabotti:	medical signal processing.
Piet Sommen:	adaptive array signal processing, acoustic communication.
Tjalling Tjalkens:	information theory, source coding.
Rik Vullings:	medical signal processing, machine learning.
Frans Willems:	information theory, digital communications and coding, authentication.
Peter de With:	video coding and analysis, embedded system architectures.
Sveta Zinger:	video content analysis, brain image analysis.

Part-time professors:

Ronald Aarts (Philips):	medical signal processing, audio signal processing.
Bert Aldenkamp (Kempenhaeghe):	neurology, imaging and cognition in epilepsy.
Johan Arends (Kempenhaeghe):	epilepsy monitoring.
Erik Korsten (Catharina hospital):	peri-operative signal and information processing.
Jean-Paul Linnartz (Philips Lighting):	digital communications, intelligent lighting.
Guid Oei (Maxima Medical Center):	perinatal monitoring, medical simulation.
Sebastiaan Overeem (Kempenhaeghe):	sleep monitoring.
Bert de Vries (GN ReSound):	machine learning, hearing aids
Hessel Wijkstra (AMC-TU/e):	prostate cancer ultrasonography.

7 PostDocs, ca. 100 PhD students.
